Happy puppy!

The primary socialization period for puppies is between the 3rd and 12th week of age.

Puppies should be introduced to most of the situations they will encounter as adults before the end of weeks 3-14.

Puppy Training Classes at Sooke vet can be done to specifically address issues, or as a comprehensive 5 session package ideally completed by the age of 16 weeks.

This is a crucial time in a puppy's life, the best time to learn how to become a happy, confident, well-rounded family member!

All you need to know inside!
